- Which kind of professor do you like best?
- What are the characteristics of a good teacher? Use examples to support you.
- ...

Thank you for your question. In my opinion, a good teacher not only has a profound knowledge in a specific area, but can have a unique way of teaching. That means a teacher can teach students not only professional knowledge but how to get on with others as well. My teacher, for example, would use many vivid real-life cases she knew to explain some abstract concepts. Besides, she can also inform us of some life teachings from those lessons. Maybe the knowledge would be forgotten one day, but those life philosophies would accompany us and benefit us for a long time.

感谢您的提问。我认为，一位优秀的老师不仅要在特定领域拥有丰富的知识，而且有独特的教学方式。这意味着老师不仅教会学生专业知识，还教会他们如何与人交往。例如我的老师会使用许多她知道的生动现实生活中的案例来解释一些抽象的概念。此外，她还可以从这些课程中告诉我们一些人生教义。也许有一天我们会忘记这些具体的知识，但是其中蕴含的生活哲理会陪伴我们并使我们受益很长时间。

Thank you for your questions. I prefer gentle and learned professors. I think a good teacher is able to illustrate difficult concepts with simple language and is good at imparting knowledge in an interesting and attractive way. For example, our teacher of commercial law, Professor Pan, not only instructs us in law study, but also directs us in our life journey. He often uses typical cases to arouse our interest in commercial law. Also, he is always willing to listen to our worries and is a constant advisor to help deal with our troubles.

**感谢您的提问。我更喜欢温柔博学的教授。我认为好的教师能够用简单的语言来讲授复杂的概念并且擅于以有趣吸引人的方式传授知识。比如，我们的商法老师潘教授不仅指导我们法律的学习，而且指引着我们的人生。他使用典型案例激起我们对于商法的兴趣，而且他总是愿意聆听我们的烦恼并帮助我们解决。**
